Objectives

• Understand how social media creates virtual spaces in which new forms of bullying arise

• Discuss what systems of care can do to address social media bullying, bias, and microaggressions

• Explore the culture of social media

• Learn about tools for limiting bullying, bias, and microaggressions in our online worlds
What is Culture?

• Let’s brainstorm…
What is Culture?

• Culture is the set of attitudes, values, beliefs, symbols, and behaviors shared by a group of people, but different for each individual, and usually communicated from one generation to the next.

Dana, 1998; Sue & Sue, 2003
Cultural Iceberg
Definition of Cultural Competence

Individual Cultural Competence: The state of being capable of functioning effectively in the context of cultural differences.

Organizational Cultural Competence: A set of congruent behaviors, attitudes, and policies that come together in a system, agency, or among professionals and enable that system, agency, or those professionals to work effectively in cross-cultural situations.

Culturally Competent Mental Health Care: Will rely on historical experiences of prejudice, discrimination, racism, and other culture-specific beliefs about health or illness, culturally unique symptoms and interventions with each cultural group to inform treatment.

Cross, Bazron, Dennis, & Isaacs, 1989; Pop-Davis, Coleman, Liu, & Toporek, 2003
What is Linguistic Competence?

The capacity of an organization and its personnel to communicate effectively, and convey information in a manner that is easily understood by diverse audiences including persons of limited English proficiency, those who have low literacy skills or are not literate, and individuals with disabilities. (Goode & Jones, 2006).
CYBER BULLYING IS...

| Being cruel to others by sending or posting harmful material using technological means; |
| an individual or group that uses information and communication involving electronic technologies to facilitate deliberate and repeated harassment or threat to an individual or group. |

Also known as:

- ‘Electronic Bullying’ & ‘Online Social Cruelty’
CYBER BULLIES’ TECHNOLOGY

- E-mail
- Cell phones
- Social Media
- Defamatory personal web sites
- Defamatory online personal polling web sites
- Chat rooms
- Blogs
- Others...?
DIFFERENCES

**BULLYING**

- DIRECT
- Occurs in person
- Fear retribution
  - **Physical**: Hitting, Punching & Shoving
  - **Verbal**: Teasing, Name calling & Gossip
  - **Nonverbal**: Use of gestures & Exclusion

www.stopbullyingnow.hrsa.gov

**CYBERBULLYING**

- **ANONYMOUS**
- Occurs in digital spaces
- Fear loss of technology privileges
- Further under the radar than bullying
- Emotional reactions cannot be determined

(McKenna & Bargh, 2004; Ybarra & Mitchell, 2004)
Bullying/CyberBullying

Similarities
- Both deal with one person taking attacking another psychologically.
- Students can deal with both through intervention.
- Both can continue after school as well.

differences
- Technology can make people feel anonymous.
- Technology can involve a larger number of people.
- Regular bullying can have a physical aspect as well.
CYBER BULLYING TYPES

- **“Flaming”:** Online fights using electronic messages with angry and vulgar language

- **“Harassment”:** Repeatedly sending offensive, rude, and insulting messages

- **“Cyber stalking”:** Repeatedly sending messages that include threats of harm or are highly intimidating. Engaging in other on-line activities that make a person afraid for his or her own safety

- **“Denigration”:** ‘Dissing’ someone online. Sending or posting cruel gossip or rumors about a person to damage his or her reputation or friendships
• “Impersonation”: Pretending to be someone else and sending or posting material online that makes that person look bad, gets that person in trouble or danger, or damages that person’s reputation or friendships

• “Outing and Trickery”: Sharing someone’s secret or embarrassing information online. Tricking someone into revealing secrets or embarrassing information which is then shared online

• “Exclusion”: Intentionally excluding someone from an on-line group, like a ‘buddy list’

{Nancy Willard, M.S., J.D., Director of the Center for Safe and Responsible Internet Use}
Effects of Bullying

People who are bullied:

- Have higher risk of depression and anxiety including these symptoms that may persist into adulthood:
  - Increased feelings of sadness and loneliness
  - Changes in sleep and eating patterns
  - Loss of interest in activities
- May have increased thoughts about suicide
- Are more likely to have health complaints
- Are more likely to retaliate through extreme violent measures.
More Effects of Bullying

People Who Bully Others:

• Have a higher risk of abusing alcohol and other drugs in adolescence and as adults.
• Are more likely to get into fights, vandalize property, and drop out of school.
• Are more likely to have convictions and traffic citations as adults.
• Are more likely to be abusive toward their romantic partners, spouses or children as adults.

Microagressions
Microaggressions

Microaggressions are “brief and commonplace daily verbal, behavioral, or environmental indignities, whether intentional or unintentional, that communicate hostile, derogatory, or negative racial slights and insults toward people of color” (Sue, et al., 2007, p. 271).
Microaggressions:
https://www.youtube.com/watch?v=BJL2P0JsAS4
Racial Microaggressions
Commonplace verbal or behavioral indignities, whether intentional or unintentional, which communicate hostile, derogatory, or negative racial slights and insults.

Microinsult (Often Unconscious)
Behavioral/verbal remarks or comments that convey rudeness, insensitivity and demean a person’s racial heritage or identity.

Microassault (Often Conscious)
Explicit racial derogations characterized primarily by a violent verbal or nonverbal attack meant to hurt the intended victim through name-calling, avoidant behavior or purposeful discriminatory actions.

Microinvalidation (Often Unconscious)
Verbal comments or behaviors that exclude, negate, or nullify the psychological thoughts, feelings, or experiential reality of a person of color.

Environmental Microaggressions (Macro-level)
Racial assaults, insults and invalidations which are manifested on systemic and environmental levels.

Ascription of Intelligence
Assigning a degree of intelligence to a person of color based on their race.
Second Class Citizen
Treated as a lesser person or group.
Pathologizing cultural values/communication styles
Notion that the values and communication styles of people of color are abnormal.
Assumption of Criminal status
Presumed to be a criminal, dangerous, or deviant based on race.

Alien in Own Land
Belief that visible racial/ethnic minority citizens are foreigners.
Color Blindness
Denial or pretend that a White person does not see color or race.
Myth of Meritocracy
Statements which assert that race plays a minor role in life success.
Denial of Individual Racism
Denial of personal racism or one’s role in its perpetuation.

Digital Citizenship

• *Digital citizenship is the continuously developing norms of appropriate, responsible, and empowered technology use.*
  - To lead and assist others in building positive digital experiences
  - To recognize that our actions have consequences to others
  - To participate in a manner for the common good
We hear so many annoying and unpleasant things as physically disabled people. Wouldn't it be nice if we could leap to our feet (or fall out of our chairs) and yell: 'BINGO!' This body of literature is so vast and rich, we decided to divide it into categories for easy reference:

Does Social Media Affect Your Culture?
What is Culture?

• Culture is the set of attitudes, values, beliefs, symbols, and behaviors shared by a group of people, but different for each individual, and usually communicated from one generation to the next.

Dana, 1998; Sue & Sue, 2003
System of Care Core Values

Youth and Family Driven

Community Based

Culturally and Linguistically Competent
Recommendations for:

- Schools
- Communities
- Policy Makers
- Researchers
- Providers
Families

• Be aware of the signs of bullying or discrimination experienced by children. Do not minimize their experiences or blame them for being overly sensitive. Work on developing an open relationship with children so that they feel comfortable sharing their experiences with bullying.

• https://www.thefyi.org/toolkits/youth-support-tool-kit/
Schools

Anti-bullying programs in schools need to incorporate identity-based bullying & discrimination and explicitly mention protected groups in the school’s bullying policy.

Mentoring Programs

Community Intercultural and interfaith initiatives
Expand the definition of bullying by the U.S. Department of Education (DOE) from incidents in which one’s religion is explicitly stated (e.g., “Bad Muslim boy”) to include those incidents when it is non-explicit, but implied by the aggressor (e.g., “Go back to where you came from”). The exclusion of such acts makes it more difficult to decipher the prevalence and impact of microaggressions from current federal data.

New bullying laws for emerging technology

Others ...?
Researchers

• Research on protective factors within various micro and macro systems, as well as examinations of effectiveness to mitigate negative effects of bullying.

TOOLS TO COMBAT CYBER BULLYING (Willard, 2005)

Specific Step Wise Plan:

1. Engage in participatory planning
2. Conduct needs assessment
3. Ensure that an effective anti–bullying program in place {core not authoritarian values; predictive empathy; peer norms vs. bullying; peer intervention skills, effective administrative responses}
4. Review policies & Procedures
5. Conduct Professional Development
6. Provide Education {prevention, detection & intervention strategies; alert child to potential consequences of school discipline, loss of family account, civil litigation, criminal prosecution}
7. Evaluate {prevention & intervention programs}
Ongoing Cultural Competence

- Cultural competence clearly implies the ability to take action, adapt and function in a different environment.
- It is a commitment to a developmental process—not a “check box” that you either have or do not have.
- Elements should be integrated into all aspects of program, policy and services and not viewed as a separate component.
## How Do We Acquire Cultural Competence?

Movement Toward Cultural Competence

• **Attitudes must change** to become less ethnocentric and biased.

• **Policies must change** to become more flexible and culturally impartial

• **Practices must become** more congruent with cultures
When culture is ignored, families are at risk of not getting the support they need, or worse yet, receiving assistance that is more harmful than helpful.
Cultural competence and linguistic competence are a life’s journey ... not a destination

Safe travels!
