Pathway to a Technology Career

CCAC's Pathway to a Technology Career is available to qualified individuals in these certificate programs:

- **COMPUTER-AIDED DRAFTING (717.1)**
This fast-track program is designed for students seeking careers in computer-aided drafting. Graduates may find employment as CAD operators, drafting technicians or engineering aides in technical professions that utilize computer-generated engineering drawings and models.
- **CYBERSECURITY (786)**
This certificate program prepares students for entry-level careers related to cybersecurity and follows the National Initiative for Cybersecurity Careers and Studies (NICCS) guidelines.
- **INFORMATION TECHNOLOGY SUPPORT (242.5)**
This program provides students with specific technical competencies for entry-level employment as a user support or network support specialist.

Pathway to a Technology Career students receive the following perks:

- a free monthly bus pass
- a \$300 stipend at the end of every semester
- a personal success coach
- a consolidated schedule
- classes & activities with other Pathway to a Technology Career students
- career development & academic success services

In exchange, students will be required to:

- be eligible for a Federal Pell Grant
- complete the FAFSA to determine eligibility
- enroll full time (a minimum of 12 credits) each semester
- maintain good academic standing (2.0 GPA)
- meet regularly with their success coach

Classes are enrolling now at CCAC's Homewood-Brushton Center and South Campus.

For more information, contact:

CCAC South Campus

Western PA Operating Engineers Joint Apprenticeship and Training Program

Improve your chances of being selected
by experiencing a **virtual**
highway construction project.

Visit **FUTUREROADBUILDERS.COM**
and earn an industry recognized certificate today.

APPRENTICESHIP - "EARNING WHILE LEARNING"

The Western Pennsylvania Operating Engineers Joint Apprenticeship and Training Program will accept applications for apprenticeship in their Heavy Equipment Operators Program and their Mechanic Technicians Program in 2016. Applicants may apply for either or both Programs but may enroll in only one. Applications will be available on select dates between December 5 - December 16, 2016. Combining on-the-job training (under the close supervision of a skilled craftperson) along with craft related classroom instruction, an apprentice learns by doing. One of the best parts of this approach is that apprentices get paid while they learn on the job and once training is complete, apprentices earn the distinction of journeyworkers.

WHAT ARE OPERATING ENGINEERS?

They are key employees on construction sites.
They are responsible for the safe operation and maintenance of large and expensive heavy construction equipment such as cranes, backhoes, loaders, scrapers, bulldozers, rollers, etc. used in the construction of our buildings, factories, roads, dams, power plants and bridges.

HEAVY EQUIPMENT OPERATORS

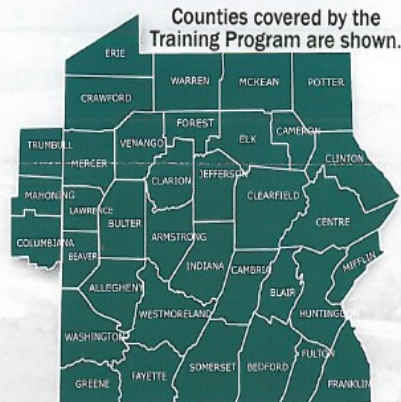

This program will teach the safe, efficient operation and basic maintenance of construction equipment. Field training will include instruction on at least 5 major types of heavy equipment. During classroom instruction apprentices will receive training in hazardous material handling, equipment maintenance, mechanical systems and reading grade stakes.

HEAVY EQUIPMENT MECHANIC TECHNICIANS

This program will teach the necessary skills to maintain, troubleshoot and perform repairs of various mechanical systems on a wide range of equipment. Apprentices will receive both hands-on and classroom instruction on the latest methods of equipment maintenance and repair.

EARN COLLEGE CREDITS

Up to 45 college credits may be awarded by a local community college to those who successfully complete this Program.

Hooked!

A Tower Crane Game
is now available in the
Apple, Google, and
Amazon app stores.

WHO QUALIFIES?

QUALIFICATION REQUIREMENTS OF THE PROGRAM INCLUDE:

1. Be at least 18 at the time of acceptance into the Program.
2. Reside in one of the 33 counties of Western Pennsylvania or Columbiana, Mahoning or Trumbull counties in Ohio for a minimum of 6 months.
3. Have a high school diploma or GED.
4. Have a valid Pennsylvania or Ohio drivers license.
5. Submit a non-refundable fee of \$25 with each application.
6. Have dependable transportation.
7. Pass a Department of Transportation physical exam.
8. Pass a drug test -
Drug use is not tolerated in the construction industry where safety is a life and death issue.

WHERE DO I PICK UP AN APPLICATION?

Applications and information packets may be downloaded at www.wpaoperators.org or picked up in person between the hours of 9:00 AM and 3:00 PM, Monday through Friday, beginning December 5 - December 16, 2016 at the following locations:

Western PA Operating Engineers Apprenticeship Office
457 Christopher Road, New Alexandria, PA 15670
Administrative Manager: Steven D. Columbus
Phone: 724.668.2244

Operating Engineers Local 66 Dispatch Offices:

111 Zeta Drive, Pittsburgh, PA 15238	101A Walker Drive, Edinboro, PA 16412
291 McClurg Road, Youngstown, OH 44512	206 Seneca St., 1st Floor, Oil City, PA 16301
107 Operators Way, New Alexandria, PA 15670	1095 University Drive, Dunbar, PA 15431
214 North Second St., Clearfield, PA 16830	

For more information, visit www.wpaoperators.org

Applications will also be available on Saturday, December 10, 2016, between the hours of 9:00 AM and 3:00 PM at the Apprenticeship Office, 457 Christopher Road, New Alexandria, PA 15670.

HOW ARE APPLICANTS SELECTED?

Selection for the Heavy Equipment Operators Program and Mechanic Technician Program will be made according to the needs within the region of western Pennsylvania and eastern Ohio covered by the Training Program. Candidates will be selected by an independent organization or appointed panel using job-related selection testing and interview. Final selection for both Programs will be made prior to April 1, 2017.

These Programs offer an excellent training opportunity, they do not guarantee full employment. Employment is assigned by the Union as provided for in the Collective Bargaining Agreements.

The Western Pennsylvania Operating Engineers Joint Apprenticeship and Training Program is a non-profit educational training program organized for the purpose of providing qualified Heavy Equipment Operators and Mechanic Technicians to employers in the construction industry.

The Western Pennsylvania Operating Engineers Joint Apprenticeship and Training Program operates on a non-discriminatory basis as outlined under Equal Employment Law - Executive Order No. 11246, Chapter 30, Title 29 and the American's With Disabilities Act, Public Law 101-336, and under the Program's Affirmative Action Plan. Female and minority applicants are urged to apply.
