

## *Introduction*

The Pennsylvania System of Care (SOC) Partnership is governed by youth leaders, family leaders, and top officials from Mental Health, Child Welfare, Juvenile Justice, Education, and the Department of Drug and Alcohol who proudly serve as equal partners on the State Leadership and Management Team (SLMT). The SLMT is interested in hearing from counties, youth, and families about ways to enhance the SOC experience throughout Pennsylvania. One way of gathering input is through a survey entitled the County Assessment. All survey responses will be kept strictly confidential and results will be shared with state and local leadership teams but not published.

Thank you for your willingness to complete this Pennsylvania SOC Partnership survey. Pennsylvania has a rich history of collaboration among child-serving systems, education, youth, families, and communities. Your participation in this survey will help us capture a broader view of local communities who are engaging in SOC practice.

### **System of Care Defined**

A System of Care approach provides an organizational framework and philosophy that result in a spectrum of effective, community-based services and supports for youth with complex behavioral health challenges, multi-system involvement and their families. These services and supports are organized into a coordinated network, build meaningful partnerships with families and youth, and address their cultural and linguistic needs in order to help them function better at home, in school, in the community and throughout life. - Beth Stroul

### **The County Assessment will gather input on these Pennsylvania SOC Standards:**

- Equal partnership on leadership teams
- Youth driven
- Family driven
- Integration of child-serving systems
- Valuing natural and community supports
- Assuring cultural and linguistic competence
- Youth & Family Services & Supports Planning Process
- Evaluation and continuous quality improvement

Sincerely,  
State Leadership & Management Team

# I. Implementation of the PA System of Care Standards

## A. County Leadership Team

*Intent of Section A: To describe the make-up and function of the County Leadership Team (CLT). Leaders from the child-serving agencies with youth and families (who have/had services from the child-serving systems) support equal decision-making within the structure. The core belief is that youth and family voice are an integral part of its membership due to their lived experience. All members understand, commit, and participate, using information to develop policy about implementing an effective System of Care through the PA System of Care Partnership Eight Standards.*

## D. Integration of Child-Serving Systems

## G. Youth and Family Services and Supports Planning Process

*Intent of Section G: The child serving systems within a county have a planning process in place for youth and family. The planning process will allow youth and families to drive the development of a plan that is meaningful and effective for them. It will include their strengths, natural and community supports, and services as needed. Examples of planning process models include but are not limited to: Child and Adolescent Service and Support Program (CASSP), Family Group Decision-Making (FGDM), High Fidelity Wraparound (HFW), Case Management, Rehabilitation for empowerment, Natural Supports, Education, and Work (RENEW), and other identified processes. ## H. Evaluation and Continuous Quality Improvement (CQI)

*Intent of Section H: The county takes an active role in gathering and reviewing data for the purposes of informed decision-making. Data is used to determine the strengths and challenges of county systems, services, and supports and identifies areas for improvement. Additionally, data is collected and analyzed to help identify and eliminate any cultural, linguistic, racial, or ethnic disparities.*

**CASSP** - Child and Adolescent Service System Program

**Child serving systems/agencies** - may include but are not limited to: mental health, behavioral health, drug and alcohol, children and youth, juvenile justice, individuals with intellectual and developmental disabilities, early intervention, physical health, education, etc.

**Community Supports** - Community organizations, churches, social groups, memberships, and social clubs in which youth and families participate.

**County Leadership Team (CLT)** - While it might vary from county to county, membership includes representation from *System Partners* (Drug & Alcohol, Mental Health, Behavioral Health, Children and Youth, Juvenile Justice, Intellectual & Developmental Disabilities, Education, etc.) and *Youth and Family Partners*. It has as its core the belief that youth and family voice are an integral part of its membership in transforming the way individual child serving systems integrate their efforts to help youth and families be successful in their homes, schools, and communities. The team should be composed of 50% system partners and a minimum of 25% youth and 25% families. All members understand, commit, and participate, using information to develop policy about implementing an effective System of Care through the PA System of Care Partnership Eight Standards. The functions of the CLT may include but are not limited to: assessment of county needs, identification of priorities, and development of outcomes, goals, and action steps to meet goals. The CLT engages in a method of review (continuous quality improvement) to assess progress and data sharing to use when making decisions for budgeting, expenditures, progress assessment, etc.

**Cultural and Linguistic Competence (CLC)** - one of the core values of systems of care.

**Cultural Broker** - A person who bridges, links, or mediates between groups or persons of differing cultural backgrounds for the purpose of reducing conflict or producing change. It is someone who acts as a liaison or more simply, a go between to advocate for another person or cultural community. Cultural Brokers include but are not limited to: social workers, interpreters, health educators, community organization board members, program support personnel, healers, spiritualists, etc.

**Cultural Brokering** - Bridging, linking or mediating between groups or persons of different cultural backgrounds to effect change.

**Disparities** - Differences in treatment that are due to a person's cultural, linguistic, racial, or ethnic background. The sources of disparities include differences in geography, lack of access to adequate health coverage, communication difficulties between consumer and provider, cultural barriers, provider stereotyping, and lack of access to providers.

**Family** - parent or family member who has/had a child or youth involved in the child-serving systems and may be a member of the County Leadership Team or a county leadership group.

**Family organization** - informal or formal support that may be led by family members who have an interest or lived experience.

**ISP** - Individualized Service Plan

**Leadership team/group** - While it might vary from county to county membership includes representation from *System Partners* (Drug & Alcohol, Mental Health, Behavioral Health, Children and Youth, Juvenile Justice, Intellectual & Developmental Disabilities, Education, etc.) and *Youth and Family Partners*. The functions of the group may include but are not limited to: assessment of county needs, identification of priorities, and development of outcomes, goals, and action steps to meet goals. The group engages in a method of review (continual quality improvement) to assess progress and data sharing to use when making decisions for budgeting, expenditures, progress assessment, etc. (Examples of groups include, but are not limited to: Communities That Care, County Children's Roundtable, Community Collaborative Boards, etc.)

**Linguistic Competence** - The capacity of an organization and its personnel to communicate effectively, and convey information in a manner that is easily understood by diverse audiences including persons of limited English proficiency, those who have low literacy skills or are not literate, and individuals with disabilities.
